

# Think Tank & Workshop Agenda Table Tennis & more (DWATTM)

## THE MAIN PROJECT

The title of the project speaks for itself: The aim is a continuation of the path started with the joint Convention of the Austrian TT Association and its Regional Associations in November 2017 and the concrete solutions of promising detailed projects.

According to Edgar Allan Poe, a work builds up itself starting from the end. Therefore, it is important to know at the beginning what is expected to be considered at the end. The project is open to new ideas and concepts. When carefully examining concepts, it may also be necessary to discard them for a variety of reasons.

### Measures to ensure success:

- **Involvement of people who have been successful in their professional lives**
- **Professional handling**
- **Transparent justification of solutions**
- **Internal and external controlling**
- **Use of synergies with other sports**

### Benefits:

The project brings at least 1000 to 2000 additional working hours per year for the Table Tennis sport sector. This means for this technologically a further development for years. By the creation of bases the grounds for future decisions is improved, by the solution of already longer pending problems the work is facilitated.

By the structure of the project the broad Austria-wide use will be ensured.

### COOPERATION

Who ?	This project can only be successful through the quality of the persons involved. It is not dictated from ABOVE, it is reasonable, it is a "Crowd Project". Therefore it also needs the support of the whole table tennis family community.
Types of cooperation - everything will help	<ul style="list-style-type: none"> <li>- at entire project</li> <li>- at special projects</li> <li>- at a subarea of the project</li> <li>- as a test reader</li> <li>- as a proofreader</li> <li>- as an investigator</li> </ul>
JDI	This does not mean a Jedi Knight but the worldwide <b>JUST DO IT</b> movement. Although this movement is directly focused on general sports activities, it can easily be transferred to the cooperation within our project.
Where ? Contact ?	<a href="https://dwattm.eu">https://dwattm.eu</a> <a href="mailto:office.db@dwattm.eu">office.db@dwattm.eu</a>
